Aeluma, Inc. and Subsidiary Notes to Consolidated Financial Statements

Note 1 – The Company

Aeluma is headquartered in Goleta, California. The Company is engaged in the research and development of infrared (IR) optical sensors to disrupt the market for IR sensors, and using its proprietary technology aims to produce a much higher performance alternative to today's low-cost sensors at much lower prices than would otherwise be possible. The focus of the Company will be the image sensor market. Initial efforts hope to penetrate the 3D imaging and sensing (mobile and consumer, defense and aerospace, industrial, medical, auto) and LiDAR (robotic vehicles, advanced driver assistance systems vehicles (ADAS), topography, wind, industrial) markets.

We were originally incorporated as Parc Investments, Inc. in the State of Delaware on August 21, 2020. Prior to the Merger (as defined below), we were a "shell company" (as defined in Rule 12b-2 under the Securities Exchange Act of 1934, as amended (the "Exchange Act")).

On June 22, 2021, our board of directors and all of our pre-Merger stockholders approved a restated certificate of incorporation, which was effective upon its filing with the Secretary of State of the State of Delaware on June 22, 2021 and through which we changed our name to "Aeluma, Inc." On June 22, 2021, our board of directors also adopted restated bylaws.

On June 22, 2021, Biond Photonics, Inc., a privately held California corporation ("Biond Photonics") merged with and into our wholly-owned subsidiary, Aeluma Operating Co., a corporation formed in the State of Delaware on June 22, 2021 ("Acquisition Sub"). Pursuant to this transaction (the "Merger"), Acquisition Sub was the surviving corporation and remained our wholly-owned subsidiary, and all the outstanding stock of Biond Photonics was converted into shares of our common stock.

As a result of the Merger, we acquired the business of Biond Photonics and continued the existing business operations of Biond Photonics as a public reporting company under the name Aeluma, Inc. In conjunction with the merger transaction, the company changed its year end to June 30. Biond Photonics was incorporated in February 2019.

Merger Agreement

On June 22, 2021, Parc Investments, Inc., Acquisition Sub and Biond Photonics entered into an Agreement and Plan of Merger and Reorganization (the "Merger Agreement"). Pursuant to the terms of the Merger Agreement, on June 22, 2021 (the "Closing Date"), Biond Photonics merged with and into Acquisition Sub, with Acquisition Sub continuing as the surviving corporation and our wholly-owned subsidiary.

As a result of the Merger, we acquired the business of Biond Photonics, a California corporation, doing business as Aeluma. At the time the certificates of merger reflecting the Merger were filed with the Secretaries of State of California and Delaware (the "Effective Time"), each of Biond Photonics' shares of capital stock issued and outstanding immediately prior to the closing of the Merger was converted into the right to receive (a) 1.299135853 shares of our common stock (the "Common Share Conversion Ratio"), with the maximum number of shares of our common stock issuable to the former holders of Biond Photonics' capital stock equal to 4,100,000 after adjustments due to rounding for fractional shares. Immediately prior to the Effective Time, an aggregate of 2,500,000 shares of our common stock owned by our stockholders prior to the Merger were forfeited and cancelled (the "Stock Forfeiture").

The issuance of shares of our common stock to Biond Photonics' former security holders are collectively referred to as the "Share Conversion."

The Merger Agreement contained customary representations and warranties and pre- and post-closing covenants of each party and customary closing conditions.

As a condition to the Merger, we entered into an indemnity agreement with our former officer and directors (the "Pre-Merger Indemnity Agreement"), pursuant to which we agreed to indemnify such former officer and directors for actions taken by them in their official capacities relating to the consideration, approval and consummation of the Merger and certain related transactions.

5

The Merger was treated as a recapitalization and reverse acquisition for financial reporting purposes. Biond Photonics is considered the acquirer for accounting purposes, and our historical financial statements before the Merger will be replaced with the historical financial statements of Biond Photonics before the Merger in future filings with the SEC. The Merger is intended to be treated as a tax-free reorganization under Section 368(a) of the Internal Revenue Code of 1986, as amended.

Change of Fiscal Year

On June 30, 2021, we changed our fiscal year from the period beginning on January 1 and ending on December 31 to the period beginning on July 1 and ending on June 30 of each year.

Note 2 – Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited interim consolidated financial statements have been presented in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and the instructions to Article 8 of Regulation S-X. Accordingly, the financial statements do not include all of the information and notes required by GAAP for complete financial statements. The consolidated financial statements as of September 30, 2022 and 2021, are unaudited; however, in the opinion of management such interim condensed consolidated financial statements reflect all adjustments, consisting solely of normal recurring adjustments, necessary for a fair presentation of the results for the periods presented. The accompanying financial information should be read in conjunction with the financial statements and the notes thereto in the Company’s most recent Annual Report on Form 10-K, as filed with the Securities and Exchange Commission (the “SEC”) on September 28, 2022. The results of operations for the period presented are not necessarily indicative of the results that might be expected for future interim periods or for the full year.

The summary of significant accounting policies presented below is designed to assist in understanding the Company’s financial statements. Such financial statements and accompanying notes are the representations of the Company’s management, who is responsible for their integrity and objectivity.

Going Concern

The Company incurred a net loss of \$3,451,699 and \$1,530,041 for the year ended June 30, 2022 and the three months ended September 30, 2022, respectively. In addition, the Company is in the research and development stage and has not generated revenue to date. In order to support its operations, the Company will require additional infusions of cash from the sale of equity instruments or the issuance of debt instruments, or the commencement of profitable revenue generating activities. If adequate funds are not available or are not available on acceptable terms, the Company’s ability to fund its operations, develop or enhance its sensors in the future or respond to competitive pressures would be significantly limited. Such limitations could require the Company to curtail, suspend or discontinue parts of its business plan.

These conditions may raise substantial doubt about the Company’s ability to continue as a going concern. The accompanying financial statements have been prepared in conformity with GAAP, which contemplate continuation of the Company as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that could result from the outcome of this uncertainty. The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

Basic Net Loss Per Share

Basic loss per share is computed by dividing net loss available to common shareholders by the weighted average number of common shares outstanding during the period. The number of shares prior to the merger have been restated to consider the conversion into the shares of the legal acquirer.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. The actual results experienced by the Company may differ materially and adversely from the Company’s estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

Reclassification of Prior Year Presentation

Certain prior year amounts have been reclassified for consistency with the current year presentation.

Fair Value of Financial Instruments

As defined in Financial Accounting Standards Board (“FASB”) ASC Topic No. 820, “Fair Value Measurements and Disclosures” (“ASC 820”), fair value is the price that would be received to sell an asset or paid to transfer the liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Company uses the market or income approach. Based on this approach, the Company utilizes certain assumptions about the risk inherent in the inputs to the valuation technique. These inputs can be readily observable, market-corroborated or generally unobservable inputs. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Company is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and the reliability of the information used to determine fair values. As a basis for considering these assumptions, ASC 820 defines a three-tier value hierarchy that prioritizes the inputs used in the valuation methodologies in measuring fair value.

Level 1 – Unadjusted quoted prices in active, accessible market for identical assets or liabilities

Level 2 – Other inputs that are directly or indirectly observable in the marketplace

Level 3 – Unobservable inputs which are supported by little or no market activity

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The carrying values of the Company’s cash, accounts payable, and accrued expenses approximate their fair value due to the relatively short maturity of these items.

Concentration of Risk

The Company maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts.

Property and Equipment

Property, equipment and leasehold improvements are reported at historical cost, net of accumulated depreciation and amortization. Depreciation is computed using the

straight-line method over the estimated useful lives of the assets. Leasehold improvements are amortized over the remaining lease term. Repairs and maintenance to these assets are charged to expense as incurred; major improvements enhancing the function and/or the asset's useful life are capitalized. When items are sold or retired, the related cost and accumulated depreciation are removed from the accounts and any gains or losses arising from such transactions are recognized.

Intangible Assets

Intangible assets are associated with the Aeluma.com domain name and are amortized on a straight-line basis over 10 years.

Cash and Cash Equivalents

The Company considers cash in banks, deposits in transit, and highly liquid debt instruments purchased with original maturities of three months or less to be cash and cash equivalents. The Company's accounts are insured by the FDIC but at times may exceed federally insured limits.

Income Taxes

The Company is expected to have net operating loss carryforwards that it can use to offset a certain amount of taxable income in the future. The Company is currently analyzing the amount of loss carryforwards that will be available to reduce future taxable income. The resulting deferred tax assets will be offset by a valuation allowance due to the uncertainty of its realization. The primary difference between income tax expense attributable to continuing operations and the amount of income tax expense that would result from applying domestic federal statutory rates to income before income taxes relates to the recognition of a valuation allowance for deferred income tax assets.

The Company has adopted FASB ASC 740-10, "Income Taxes" which clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and prescribes a recognition threshold of more likely than not as a measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. In making this assessment, a Company must determine whether it is more likely than not that a tax position will be sustained upon examination, based solely on the technical merits of the position and must assume that the tax position will be examined by taxing authorities. The Company's policy is to include interest and penalties related to unrecognized tax benefits in income tax expense. Interest and penalties totaled \$0 for periods presented. The Company's net operating loss carryforwards are subject to IRS examination until they are fully utilized, and such tax years are closed.

The Company will file tax returns in the U.S. federal jurisdiction and the state of California. The Company's federal and state return form are subject to review by the taxing authorities. The Company is not currently under examination by any taxing authority, nor has it been notified of an impending examination.

Stock-Based Compensation

The Company accounts for stock-based compensation arrangements in accordance with guidance issued by the FASB, which requires the measurement and recognition of compensation expense for all share-based payment awards made to employees, consultants, and directors based on estimated fair values.

The Company estimates the fair value of stock-based compensation awards on the date of grant using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as an expense over the requisite service periods in the Company's statements of operations. The Company estimates the fair value of stock-based compensation awards using the Black-Scholes model. This model requires the Company to estimate the expected volatility and value of its common stock and the expected term of the stock options, all of which are highly complex and subjective variables. For employees and directors, the expected life was calculated based on the simplified method as described by the SEC Staff Accounting Bulletin No. 110, Share-Based Payment. For other service providers, the expected life was calculated using the contractual term of the award. The Company's estimate of expected volatility was based on the volatility of peers. The Company has selected a risk-free rate based on the implied yield available on U.S. Treasury securities with a maturity equivalent to the expected term of the options. We account for forfeitures upon occurrence.

Recent Accounting Pronouncements

In April 2016, the FASB issued ASU 2016-10, Revenue from Contracts with Customers (Topic 606), which amends certain aspects of the Board's new revenue standard, ASU 2014-09, Revenue from Contracts with Customers. The Company does not currently generate revenue.

Note 3 – Stockholders' Equity

Authorized Shares

The Company's Articles of Incorporation authorize the issuance of two classes of shares of stock. The total number of shares which this corporation is authorized to issue is 50,000,000 shares of \$0.0001 par value common stock and 10,000,000 of \$0.0001 par value preferred stock. No preferred shares were issued as of September 30, 2022.

Common Stock Offering

Immediately following the Merger, we sold 3,482,500 shares of our common stock pursuant to an initial closing of a private placement offering at a purchase price of \$3.00 per share. We held a second closing on June 28, 2021 for an additional 402,500 shares of our common stock and a third and final close on July 1, 2021 for an additional 115,000. Accordingly, we sold a total of 4,000,000 shares of our common stock. The private placement offering is referred to herein as the "Offering."

The aggregate gross proceeds from the Offering during the three months ended September 30, 2021 were \$230,000 (before deducting placement agent fees and expenses of the Offering of \$23,070). We also paid additional offering costs totaling \$45,000 during the three months ended September 30, 2021.

The Offering was exempt from registration under Section 4(a)(2) of the Securities Act and Rule 506 of Regulation D promulgated by the SEC thereunder. The common stock in the Offering was sold to "accredited investors," as defined in Regulation D, and was conducted on a "reasonable best efforts" basis.

Issued and Vested Shares to Officers

On October 27th, 2020, the Company issued 1,623,920 shares of common stock to Director and CEO Jonathan Klamkin and 1,623,920 shares of common stock to Director, interim CFO and COO, Lee McCarthy for an aggregate sum of \$10,000 each. The stock purchase agreement contains a repurchase option whereby unvested shares may be repurchased by the Company, at the Company's option, within 90 days after employee termination. 324,784 shares vested on October 27th, 2020, and the remaining 1,299,136 shares vest in equal amounts, monthly over the subsequent 4 years. At September 30, 2022, each of these officers had 947,287 vested shares, and 676,633 unvested shares.

Registration Rights Agreement

The Company entered into a registration rights agreement that provides for certain liquidated damages upon the occurrence of a “Registration Event,” which is defined as the occurrence of any of the following events: (a) the Company fails to file with the Commission the Registration Statement on or before the Registration Filing Date; (b) the Registration Statement is not declared effective by the Commission on or before the Registration Effectiveness Date; (c) after the SEC Effective Date, the Registration Statement ceases for any reason to remain effective or the Holders of Registrable Securities covered thereby are otherwise not permitted to utilize the prospectus therein to resell the Registrable Securities covered thereby, except for Blackout Periods permitted herein; or (d) following the listing or inclusion for quotation on an Approved Market, the Registrable Securities, if issued and outstanding, are not listed or included for quotation on an Approved Market, or trading of the Common Stock is suspended or halted on the Approved Market, which at the time constitutes the principal markets for the Common Stock, for more than three (3) full, consecutive Trading Days (other than as a result of (A) actions or inactions of parties other than the Company or its affiliates or of the Approved Market not reasonably in the control of the Company, or (B) suspension or halt of substantially all trading in equity securities (including the Common Stock) on the Approved Market). The maximum amount of liquidated damages that may be paid by the Company shall be an amount equal to eight percent (8%) of the shares covered by the registration rights agreement. This filing covered 11,010,002 shares. The Company currently expects to satisfy all of its obligations under the Registration Agreement and does not expect to pay any damages pursuant to this agreement; therefore, no liability has been recorded.

Note 4 – Stock-Based Compensation

Restricted Stock Awards

During six months ended June 30, 2021, the Company sold 723,008 shares of common stock to certain individuals in exchange for future management advisory services, for discounted prices ranging from \$.0104 to \$.0195 per share. The shares are subject to restrictions that allow for repurchase of the shares by the Company due to a termination of the service agreement or other certain provisions. This repurchase right declines on a pro-rata basis over vesting periods (corresponding to the service period) ranging from 2-4 years. Related to these issuances, the Company has recorded deferred stock-based compensation for the value of the shares in excess of the purchase price paid by the advisors. The stock-based compensation is expensed over the service period. For the three months ended September 30, 2022 and 2021, \$166,977 and \$165,162 have been amortized in the statement of operations, and \$506,521 is presented as deferred compensation on the balance sheets at September 30, 2022, which is expected to be expensed in the next twelve months.

In March 2022, the Company signed an agreement to issue 150,000 shares of common stock valued at \$300,000 to a consultant for providing consulting services to the Company for eighteen months. For the three months ended September 30, 2022, \$108,000 has been expensed in the statement of operations, and \$192,000 is presented as deferred compensation on the balance sheets at September 30, 2022, which is expected to be expensed in the next twelve months. The 150,000 shares of common stock are not yet issued at September 30, 2022 and the Company recorded \$300,000 as other current liability as of September 30, 2022.

The following is a schedule summarizing restricted stock awards for the periods indicated:

	Number of Shares	Weighted Average Grant Date Fair Value per Price
Outstanding at July 1, 2022	344,426	\$ 1.90
Granted	-	-
Vested	(86,702)	\$ 1.90
Forfeited	-	-
Outstanding at September 30, 2022	257,724	\$ 1.90

	Number of Options	Weighted Average Grant Date Fair Value per Price
Outstanding at July 1, 2021	691,232	\$ 1.90
Granted	-	-
Vested	(86,702)	\$ 1.90
Forfeited	-	-
Outstanding at September 30, 2021	604,530	\$ 1.90

Stock Options

In July of 2021, the Company issued an option to purchase 10,000 shares of common stock to a director at a price of \$2.00 per share, expiring in 10 years, and an option to purchase 10,000 shares of common stock to an advisor at a price of \$2.00 per share expiring in 5 years. These options vested over periods ranging from one month to three months.

In December of 2021, the Company issued options to purchase common stock to two directors in increments of 125,000 each. The options have an exercise price of \$2.00, expire in 10 years, vest 12,500 options per quarter in the first year and 9,375 per quarter for the following two years. In February of 2022, the company granted 16,750 in options to one director and 15,500 to another director at a price of \$2.00 per share, for committee service. These options are subject to quarterly vesting over four quarters and expire in 10 years.

On February 1, 2022, the Company entered into a consulting advisory agreement which grants 2,500 options with every patent filing. On February 4, 2022, the advisor was granted 2,500 options with an exercise price of \$2.00 and an expiration date of ten years.

In April of 2022, the Company issued 513,000 options to purchase common stock to employees. The options have an exercise price of \$2.00 and expire in 10 years with 25% vesting after one year and the remainder scheduled to vest each quarter for three years, subject to the continued status as an employee to the Company through each vesting date.

The estimated weighted average fair value of the options granted for the year ended June 30, 2022 were approximately \$1.50 per share.

The Company estimates the fair value of each option award using the Black-Scholes option-pricing model. The Company used the following assumptions for to estimate the fair value of stock options for directors issued for the year ended June 30, 2022:

Expected volatility	100%
Expected term	5.0 years
Dividend yield	0.00%
Risk-free interest rate	1.15% - 2.41%

For the three months ended September 30, 2022 and 2021, stock-based compensation expenses for options granted were \$70,090 and \$29,668, respectively. Unrecognized stock-based compensation expense was \$761,262 and average expected recognition period was 3.0 years as of September 30, 2022.

The following is a schedule summarizing employee and non-employee stock option activity for the period presented:

	Number of Options	Weighted Average Exercise Price	Aggregate Intrinsic Value
Outstanding at July 1, 2022	817,750	\$ 2.00	\$ -
Granted	-	-	-
Exercised	-	-	-
Expired/cancelled	(120,000)	\$ 2.00	-
Outstanding at September 30, 2022	<u>697,750</u>	<u>\$ 2.00</u>	<u>\$ -</u>
Exercisable at September 30, 2022	<u>122,146</u>	<u>\$ 2.00</u>	<u>\$ -</u>
	Number of Options	Weighted Average Exercise Price	Aggregate Intrinsic Value
Outstanding at July 1, 2021	-	-	-
Granted	20,000	\$ 2.00	-
Exercised	-	-	-
Expired/cancelled	-	\$ 2.00	-
Outstanding at September 30, 2021	<u>20,000</u>	<u>\$ 2.00</u>	<u>\$ -</u>
Exercisable at September 30, 2021	<u>17,500</u>	<u>\$ 2.00</u>	<u>\$ -</u>

The aggregate intrinsic value represents the difference between the exercise price of the options and the estimated fair value of the Company's common stock for each of the respective periods.

Note 5 – Facility Operating Lease

On April 1, 2021, the Company commenced a 5-year operating lease for a facility in Santa Barbara, California with total lease payments of \$781,813. The Company determined the lease constitutes a Right of Use (ROU) asset and has recorded the present value of the lease payments as an asset and liability per ASC 842. The value of the asset will be amortized on a straight-line basis over the 60-month period and amortization began at the start of the lease. Additionally, the lease agreement waived the first three months of rent with payments commencing July 2021. At the commencement of the lease, the net present value of the lease payments was 767,553. In addition to these lease payments, the Company is also responsible for its shares of common area operating expenses and electricity. Such expenses are considered variable costs and are not included in the measurement of the lease liability. The lease agreement also provides for the option to extend the lease for two additional sixty-month periods. The lease payments for these additional periods are not included in the lease liability amount presented on the balance sheet.

The following table presents maturities of operating lease liabilities on an undiscounted basis as of September 30, 2022:

Fiscal 2023	\$ 121,052
Fiscal 2024	165,096
Fiscal 2025	169,224
Fiscal 2026	129,283
Total	<u>584,655</u>
Less imputed interest	(7,891)
Total operating lease liability	<u>576,764</u>
Less: current portion	158,284
Lease liability, long term	<u>\$ 418,480</u>

The lease term and the discount rate for the lease at September 30, 2022 is 3.5 years and 0.75%, respectively. The total lease payments were \$40,359 and \$31,593 for the three months ended September 30, 2022 and 2021, respectively. The variable costs for common area operating expenses and electricity were \$103,795, and \$56,803 for the three months ended September 30, 2022 and 2021, respectively.

Beginning April 1, 2021, the Company began subleasing a portion of their facility. The sub-lease provides for base monthly rent of \$13,013 through May 31, 2021 and \$8,400 starting June 1, 2021 plus common area operating and utility costs. The sublease was amended again on May 17, 2022 to sublease a smaller portion of the property at a base rental rate of \$5,200 per month effective June 1, 2022. During the three months ended September 30, 2022 and 2021, the Company recognized \$31,351 and \$90,352, respectively, of rental income, including reimbursement of common area operating and utility costs.

Note 6 – Warrants to Purchase Common Stock

In connection with the Offering, the Company issued 360,000 warrants to purchase common stock to the Placement Agents. The warrants carry a term of 5 years and an exercise price of \$2.00.

Note 7 – Subsequent Events

The Company has analyzed its operations subsequent to September 30, 2022 through the date these financial statements were issued, and has determined that, other than disclosed below, it does not have any material subsequent events to disclose.

On November 7, 2022, the Company issued 150,000 shares of common stock to a consultant for providing consulting services to the Company. See Note 4 – Stock-Based Compensation.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING INFORMATION

The following information should be read in conjunction with Aeluma, Inc. and its subsidiaries ("we", "us", "our", or the "Company") unaudited financial statements and the notes thereto contained elsewhere in this report. Information in this Item 2, "Management's Discussion and Analysis of Financial Condition and Results of Operations," and elsewhere in this Form 10-Q that does not consist of historical facts, are "forward-looking statements." Statements accompanied or qualified by, or containing words such as "may," "will," "should," "believes," "expects," "intends," "plans," "projects," "estimates," "predicts," "potential," "outlook," "forecast," "anticipates," "presume," and "assume" constitute forward-looking statements, and as such, are not a guarantee of future performance.

Forward-looking statements are subject to risks and uncertainties, certain of which are beyond our control. Actual results could differ materially from those anticipated as a result of the factors described in the "Risk Factors" and detailed in our other Securities and Exchange Commission ("SEC") filings. Risks and uncertainties can include, among others, international, national and local general economic and market conditions; demographic changes; the ability of the Company to sustain, manage or forecast its growth; the ability of the Company to successfully make and integrate acquisitions; raw material costs and availability; new product development and introduction; existing government regulations and changes in, or the failure to comply with, government regulations; adverse publicity; competition; the loss of significant customers or suppliers; fluctuations and difficulty in forecasting operating results; changes in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; the ability to obtain sufficient financing to continue and expand business operations; the ability to develop technology and products; changes in technology and the development of technology and intellectual property by competitors; the ability to protect technology and develop intellectual property; and other factors referenced in this and previous filings. Consequently, investors should not place undue reliance on forward-looking statements as predictive of future results.

Because of these risks and uncertainties, the forward-looking events and circumstances discussed in this report or incorporated by reference might not transpire. You should review the disclosure under the heading "Risk Factors" in other filings we make with the SEC for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

The Company disclaims any obligation to update the forward-looking statements in this report.

Overview

On June 22, 2021, the Company, Acquisition Sub and Biond Photonics entered into an Agreement and Plan of Merger and Reorganization (the "Merger Agreement"). Pursuant to the terms of the Merger Agreement, on June 22, 2021 (the "Closing Date"), Biond Photonics merged with and into Acquisition Sub, with Acquisition Sub continuing as the surviving corporation and our wholly-owned subsidiary.

As a result of the Merger, we acquired the business of Biond Photonics, a California corporation, doing business as Aeluma. At the time the certificates of merger reflecting the Merger were filed with the Secretaries of State of California and Delaware (the "Effective Time"), each of Biond Photonics' shares of capital stock issued and outstanding immediately prior to the closing of the Merger was converted into the right to receive (a) 1.299135853 shares of our common stock (the "Common Share Conversion Ratio"), with the maximum number of shares of our common stock issuable to the former holders of Biond Photonics' capital stock equal to 4,100,002 after adjustments due to rounding for fractional shares. Immediately prior to the Effective Time, an aggregate of 2,500,000 shares of our common stock owned by our stockholders prior to the Merger were forfeited and cancelled (the "Stock Forfeiture").

The issuance of shares of our common stock to Biond Photonics' former security holders are collectively referred to as the "Share Conversion."

The Merger Agreement contained customary representations and warranties and pre- and post-closing covenants of each party and customary closing conditions.

As a condition to the Merger, we entered into an indemnity agreement with our former officer and directors (the "Pre-Merger Indemnity Agreement"), pursuant to which we agreed to indemnify such former officer and directors for actions taken by them in their official capacities relating to the consideration, approval and consummation of the Merger and certain related transactions.

The Merger was treated as a recapitalization and reverse acquisition for us for financial reporting purposes. Biond Photonics is considered the acquirer for accounting purposes, and our historical financial statements before the Merger were replaced with the historical financial statements of Biond Photonics before the Merger in future filings with the SEC. The Merger is intended to be treated as a tax-free reorganization under Section 368(a) of the Internal Revenue Code of 1986, as amended.

The issuance of securities pursuant to the Share Conversion was not registered under the Securities Act, in reliance upon the exemption from registration provided by Section 4(a)(2) of the Securities Act, which exempts transactions by an issuer not involving any public offering, and Rule 506 of Regulation D promulgated by the SEC thereunder. These securities may not be offered or sold in the U.S. absent registration or an applicable exemption from the registration requirement and are subject to further contractual restrictions on transfer.

Prior to the Merger, the sole business purpose of the Company was to seek the acquisition of or merger with, an existing company.

As a result of the consummation of the Merger, on June 22, 2021, Biond Photonics, Inc. became our wholly-owned subsidiary and the business of Biond Photonics, Inc. became the business of the Company going forward. Accordingly, at the closing, the Company ceased to be a shell company.

We develop novel optoelectronic devices for sensing and communications applications. Aeluma has pioneered a technique to manufacture devices using high performance compound semiconductor materials on large diameter silicon wafers that are commonly used to manufacture mass market microelectronics. This enables cost effective manufacturing of high performance photodetector array circuits for imaging applications in mobile devices. These devices may be used as image sensors that generate an image by detecting light, in a manner similar to a digital camera taking a picture. Our devices may incorporate additional functionality and enhanced performance to enable 3D image capture when integrated into various system architectures. This technology has the potential to greatly enhance the performance and capability of camera image sensors, LiDAR, augmented reality, facial recognition, and other applications. Aeluma has acquired a key piece of manufacturing equipment and has headquarters in Goleta, CA with

a manufacturing cleanroom to house this equipment.

The Private Placement Offering

Immediately following the Merger, we sold 3,482,500 shares of our common stock pursuant to an initial closing of a private placement offering at a purchase price of \$2.00 per share (the “Offering Price”). We held a second closing on June 28, 2021 for an additional 402,500 shares of our common stock and a third and final close on July 1, 2021 for an additional 115,000. Accordingly, we sold a total of 4,000,000 shares of our common stock. The private placement offering is referred to herein as the “Offering.”

The aggregate gross proceeds from the three closings of the Offering were \$8,000,000 (before deducting placement agent fees and expenses of the Offering of \$1,082,575).

The three closings of the Offering were exempt from registration under Section 4(a)(2) of the Securities Act and Rule 506 of Regulation D promulgated by the SEC thereunder. The common stock in the Offering was sold to “accredited investors,” as defined in Regulation D, and was conducted on a “reasonable best efforts” basis.

In connection with the Offering and subject to the closing of the Offering, we agreed to pay the placement agent, GP Nurmenkari Inc. (the “Placement Agent”), a U.S. registered broker-dealer, a cash placement fee of 10% of the gross proceeds raised from investors in the Offering (other than the first \$630,000 of common stock sold to pre-Merger Biond Photonics shareholders and their friends and family, for which the Placement Agent received a 3% cash fee, and \$170,000 of common stock sold to pre-Merger Biond Photonics friends and family for which the Placement Agent received no cash fee) and to issue to it 50,000 shares of our common stock and warrants to purchase a number of shares of our common stock equal to 10% of the number of shares of common stock sold in the Offering (other than the first \$800,000 of common stock sold to pre-Merger Biond Photonics shareholders and their friends and family), with a term of five years and an exercise price of \$2.00 per share (the “Placement Agent Warrants”). We also agreed to pay certain expenses of the Placement Agent in connection with the Offering.

13

As a result of the foregoing, we paid the Placement Agent an aggregate commission of \$748,900 and issued to it 50,000 shares of our common stock and Placement Agent Warrants to purchase 360,000 shares of our common stock in connection with the two closings of the Offering. We have also reimbursed the Placement Agent for approximately \$265,000 of legal and other expenses incurred in connection with the Offering.

A note payable to an officer of Parc Investments, Inc. in the amount of \$50,000 was repaid directly from the proceeds from the Offering.

Subject to certain customary exceptions, we agreed to indemnify the Placement Agent to the fullest extent permitted by law against certain liabilities that may be incurred in connection with the Offering, including certain civil liabilities under the Securities Act, and, where such indemnification is not available, to contribute to the payments the Placement Agent and their sub-agents may be required to make in respect of such liabilities.

Plan of Operations

We have been developing our materials and characterization capabilities at our headquarters in Goleta, CA, in connection with the further development of our business and the implementation of our plan of operations. We have installed some key manufacturing equipment at our headquarters and will continue to develop relationships with manufacturing partners to carry out certain steps of our manufacturing processes externally. We have gained access to a rapid prototyping facility and are leveraging this access to fabricate early-stage prototypes. In the future, we intend to implement appropriate quality and manufacturing controls. Some equipment was procured previously, and other equipment is being procured through purchase orders with equipment vendors. The COVID-19 pandemic has adversely disrupted, and may further disrupt, the operations at certain of our suppliers and other third-party providers. Lead times for certain materials and parts ordered have been longer than anticipated and on-site support for equipment maintenance has been challenging to schedule. Spare parts have been procured to minimize disruption to our development. The rapid prototyping facility that we access for development was closed for a brief period of time at the start of the COVID-19 pandemic. It has been open for unlimited access since Aeluma has first gained access.

The primary sources of funding for equipment procurement and installation are the seed funding raised prior to becoming a public company and the funding raised from our financing during June/July of 2021. We have also leveraged funds to continue strengthening our intellectual property including patent applications, trademarks, and development of trade secrets and manufacturing process recipes. We will continue to develop our manufacturing and product development strategy by further engaging customers and strategic partners.

Limited Operating History

We cannot guarantee that the proceeds from the Offering will be sufficient to carry out all of our business plans. Our business is subject to risks inherent in growing an enterprise, including limited capital resources, risks inherent in the research and development process and possible rejection of our products in development.

If financing is not available on satisfactory terms, we may be unable to carry out all of our operations. Equity financing will result in dilution to existing stockholders.

Change of Fiscal Year

On June 30, 2021, we changed our fiscal year from the period beginning on January 1 and ending on December 31 to the period beginning on July 1 and ending on June 30 of each year.

14

Results of Operations

Three months ended September 30, 2022 compared to the three months ended September 30, 2021

Our results of operations for the three-month period ended September 30, 2022, as compared to the three-month period ended September 30, 2021, were as follows (some balances on the prior period’s combined financial statements have been reclassified to conform to the current period presentation):

	Three Months Ended September 30,		
	2022	2021	Change '22 vs. '21
Revenue	\$ -	\$ -	\$ -
Operating expenses	1,566,687	694,776	871,911
Other income	36,646	91,126	(54,480)

Loss before provision for income tax	(1,530,041)	(603,650)	(926,391)
Provision for income tax	-	-	-
Net loss	\$ (1,530,041)	\$ (603,650)	\$ (926,391)

Net Revenues: We are pre-revenue and, accordingly recorded no revenues for either the three months ended September 30, 2022 or 2021.

Operating Expenses: During the three months ended September 30, 2022 and 2021, we incurred \$1,566,687 and \$694,777 of operating expenses, respectively. This increase was due to the start-up of operations and stock compensation expenses related to advisor and consulting agreements.

Sub-lease rental income and other income: During the three months ended September 30, 2022 and 2021, the Company recorded net rental and other income of \$36,646 and \$91,126, respectively. The decrease was due to the reduced rental space to a sub-lease to our tenant.

Provision for income tax: The Company recorded no provision for income tax for either of the three months ended September 30, 2022 and 2021, as such amounts are insignificant.

Net Loss: Net loss increased to \$1,530,041 for the three months ended September 30, 2022, as compared to \$603,650 for the three months ended September 30, 2021 for start-up of operations and stock compensation expenses related to advisor and consulting agreements.

Capital Resources and Liquidity

Our financial statements have been presented on the basis that are a going concern, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. As presented in the financial statements, we incurred a net loss of \$1,530,041 for the three months ended September 30, 2022 and losses are expected to continue in the near term. The accumulated deficit was \$5,212,525. We have been funding our operations through private loans and the sale of common stock in private placement transactions.

Management anticipates that significant additional expenditures will be necessary to develop and expand our business before significant positive operating cash flows can be achieved. Our ability to continue as a going concern is dependent upon our ability to raise additional capital and to ultimately achieve sustainable revenues and profitable operations. At September 30, 2022, we had \$2,371,323 of cash on hand. These funds are insufficient to complete our business plan and, as a consequence, we will need to seek additional funds, primarily through the issuance of debt or equity securities for cash to operate our business. No assurance can be given that any future financing will be available or, if available, that it will be on terms that are satisfactory to us. Even if we are able to obtain additional financing, it may contain undue restrictions on our operations, in the case of debt financing or cause substantial dilution for our stockholders, in the case of equity financing.

Management has undertaken steps as part of a plan to improve operations with the goal of sustaining our operations for the next twelve months and beyond. These steps include (a) raising additional capital and/or obtaining financing; (b) controlling overhead and expenses; and (c) executing material sales or research contracts. There can be no assurance that the Company can successfully accomplish these steps and it is uncertain that the Company will achieve a profitable level of operations and obtain additional financing. There can be no assurance that any additional financing will be available to the Company on satisfactory terms and conditions, if at all. As of the date of this Report, we have not entered into any formal agreements regarding the above.

In the event the Company is unable to continue as a going concern, the Company may elect or be required to seek protection from its creditors by filing a voluntary petition in bankruptcy or may be subject to an involuntary petition in bankruptcy. To date, management has not considered this alternative, nor does management view it as a likely occurrence.

We had net working capital of \$2,587,345 and \$4,058,409 at September 30, 2022 and June 30, 2022, respectively. Current assets decreased \$1,047,772 to \$3,383,076 at September 30, 2022 from \$4,430,848 at June 30, 2022, primarily due to funding operating expenses of \$1,566,687 for the three months ended September 30, 2022. Current liabilities increased \$423,292 to \$795,731 at September 30, 2022 from \$372,439 at June 30, 2022, due primarily to a \$300,000 increase in other liabilities, which will be recorded to additional paid-in capital when restricted stocks are issued in November 2022.

The following table shows a summary of our cash flows for the periods presented:

	Three Months Ended September 30,		Change '22 vs. '21
	2022	2021	
Net cash (used in) provided by			
Operating activities	\$ (1,316,739)	\$ (492,052)	\$ (824,687)
Investing activities	(52,660)	(258,910)	206,250
Financing activities	-	161,930	(161,930)
Decrease in cash	\$ (1,369,399)	\$ (589,032)	\$ (780,367)

Net cash used in our operating activities were \$1,316,739 and \$492,052 for the three months ended September 30, 2022 and 2021. The increase of \$824,687 was due mainly to \$871,911 increase in operating expenses.

Net cash used in our investing activities was \$52,660 and \$258,910 for the three months ended September 30, 2022 and 2021, respectively. Investing activity for the three months ended September 30, 2021 was related to the setup of our new facility.

Our financing activities generated a cash inflow of \$161,930 for the three months ended September 30, 2021, due to the offering described above.

Critical Accounting Policies

The preparation of financial statements in accordance with U.S. GAAP requires us to make estimates and assumptions affecting the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net revenues and expenses in the reporting period. We base our estimates and assumptions on current facts, historical experience and various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. We continually review the estimates and underlying assumptions to ensure they are appropriate for the circumstances. Accounting assumptions and estimates are inherently uncertain and actual results may differ materially from our estimates.

A summary of our other critical accounting policies is included in Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended June 30, 2022. During the three months ended September 30, 2022, there were no significant changes in our critical accounting policies.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements, financings, or other relationships with unconsolidated entities or other persons, also known as “special purpose entities” (SPEs).

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES*Evaluation of Disclosure Controls and Procedures*

As of the end of the three-month period ended September 30, 2022, we carried out an evaluation, under the supervision and with the participation of management, including our chief executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon those evaluations, management concluded that our disclosure controls and procedures were not effective as of September 30, 2022 to cause the information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods prescribed by SEC, and that such information is accumulated and communicated to management, including our chief executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Going forward from this filing, the Company intends to work on maintaining disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) that are designed to be effective in providing reasonable assurance that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to our management to allow timely decisions regarding required disclosure.

In designing and evaluating disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute assurance of achieving the desired objectives. Also, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. The design of any system of controls is based, in part, upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Changes in Internal Control over Financial Reporting

During the quarter covered by this Report, there were no changes in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting.

PART II - OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

From time to time, the Company may become a party to litigation or other legal proceedings that it considers to be a part of the ordinary course of its business. To the best of our knowledge, the Company is not currently involved in any legal proceedings that could reasonably be expected to have a material adverse effect on our business, prospects, financial condition or results of operations; however, the Company may become involved in material legal proceedings in the future.

ITEM 1A. RISK FACTORS

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and, as such, are not required to provide the information under this item.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

We did not sell any equity securities which were not registered under the Securities Act during the quarter ended September 30, 2022 that were not otherwise disclosed in our Quarterly Reports on Form 10-Q or our Current Reports on Form 8-K.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

- a) On November 8, 2022, Lee McCarthy provided notice of his resignation as our Chief Operating Officer effective November 17, 2022. Mr. McCarthy’s decision to resign was not the result of any disagreements with the Company on any matter related to the operations, policies, or practices of the Company.
- b) None.

CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO EXCHANGE ACT RULE 13A-14(A) OR RULE 15D-14(A), AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Jonathan Klamkin, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the period ended September 30, 2022, of Aeluma, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors:
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
